

Art.Nr. 280 1000

Diagram illustrating the assembly steps for a shower head:

- Insert the blue (blau) and red (rot) braided hoses into the shower head.
- Insert a long thin rod into the side of the shower head.
- Insert a shorter rod into the bottom of the shower head.
- Place the shower head onto a square plate.
- Insert the rods into the plate.
- Insert a cap into the top of the plate.
- Insert a rod into the bottom of the plate.
- Insert a rod into the side of the plate.

[illegible]

This exploded view diagram illustrates the components of a kitchen faucet assembly. The main components shown are:

- Faucet Handle:** A curved handle with a lever, positioned at the top.
- Cartridge:** A central component with a curved lever, shown in two positions (up and down).
- Mounting Hardware:** Two sets of screws and washers for securing the faucet to the sink deck.
- Base:** A cylindrical component that houses the cartridge.
- Decorative Cap:** A small, cylindrical cap for the base.
- Spout:** A long, curved spout with a lever, shown in two positions (up and down).
