FlexCover long

Flexible cover for retrofitting a WASHLET® installation

DE: FlexCover lang, flexible Abdeckung für eine nachträgliche WASHLET® Installation
FR: FlexCover longue, cache flexible pour une installation de WASHLET® ultérieure
IT: FlexCover lunga, calotta flessibile per installazione successiva del WASHLET®
NL: FlexCover lang, flexibele afdekking voor het achteraf installeren van een WASHLET®

ALLOWS FOR STANDARD SEAT USE, PRE UPGRADE TO WASHLET®

THIS IS HOW IT WORKS:
The WC ceramics for WASHLET® already have an installation opening for water and electricity. When used as a toilet with a standard WC seat, this opening is covered with the FlexCover. It's quick and easy to upgrade to WASHLET® at anytime. Upgrading to automatic flush requires TOTO WC element / concealed cistern.
